

OneView

Workforce Planning,
Management and Forecasting
All-in OneView

Workforces are constantly evolving, demanding adaptable models and precise planning. OneView provides a single source of truth for workforce management, ensuring resilience in dynamic, safety-critical environments. From compliance and staff movements to drills and risk assessments, OneView enables real-time oversight for better decisions and duty of care.

What are the key benefits?

One Source of the Truth

Reliable data powers better planning and faster decisions. OneView replaces spreadsheets for seamless collaboration.

Rapid Response

Quickly locate resources by role, skill, experience, and location for emergency and non-emergency planning scenarios.

Safer Deployment

Identify qualified staff for safety-critical roles, with built-in travel management for cost-effective deployment and risk control.

Better Forecasting

OneView tracks historical data and real-time changes, enabling better resource forecasting and more predictable planning.

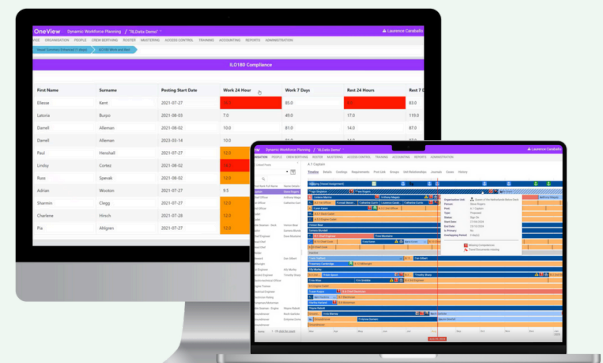

Easier Integration

OneView's open API facilitates seamless integration with existing systems, reducing costs and ongoing support needs.

What more does OneView offer?

- **Save up to 20%** in time by streamlining scheduling & reducing admin work
- **Cut 15% in costs** through smarter resource allocation
- **Ensure compliance** with automated tracking & reporting
- Gain **real-time insights** for data-driven decision-making
- Enhance **staff retention** with better workforce planning
- Drive **accurate travel** planning using up-to-date personnel data
- Enable **timely communication** using My OneView
